## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claim(s) 1-16, drawn to an epoxy resin composition and a corresponding prepreg.
- Group II, claim(s) 17 & 18-26, and 43-49, drawn to a carbon-fiber-reinforced composite sheet and an integrated molding comprising said sheet.
- Group III, claim(s) 17 & 27-42, drawn to a carbon-fiber-reinforced composite sheet and a fiber-reinforced composite sheet comprising said sheet.
  - Note: claim 17 can be linked to either Group II or Group III.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- Group I features a specific epoxy formulation. Groups II and II do not feature or require this formulation.
- Group II features an integrated molding. Groups I and III do not feature or require the structural limitations of this integrated molding.
- Group III features a fiber-reinforced composite sheet. Groups I and II do not feature or require the structural limitations of this fiber-reinforced composite sheet.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
